

## **US Internet Acquires Assets of Internet and Telephony Company Modern Digital Communications Inc.**

**Minneapolis, MN - January 28, 2010** - US Internet, a global provider of Internet, hosting and digital phone services, today announced it has acquired the assets of Modern Digital Communications Inc. Financial terms not disclosed.

Modern Digital Communications Inc., doing business as Ravon ([www.Ravon.net](http://www.Ravon.net)), was founded in 1999. Ravon has built a loyal customer base through offering next-generation Internet and telephony services that leverage existing high-speed Internet connections to deliver advanced calling features and high definition digital quality phone service at a fraction of the cost of traditional alternatives. Under the Ravon brand, US Internet now offers industry-leading digital telephony communications services for any sized business including [Hosted IP PBX](#) and [SIP Trunking](#).

“Owning a digital phone company was a strategic move to help evolve our business to the next level of growth,” said Joe Caldwell, US Internet vice president of sales and marketing. “Adding digital voice to our suite of services allows us to tap into a new platform and leverage that technology.”

Added Mr. Caldwell, “We are thrilled about adding such talented people and industry expertise to our support structure. For the customer, we wanted to offer a solution that they could truly utilize and benefit from as well as one that delivers significant cost-savings, especially during these challenging economic times. Through Ravon’s digital phone services, we are able to offer customers savings of 30-to-60 percent off their local phone bill.”
